

10th Annual

Renewable Energy Roundup & Green Living Fair
Fredericksburg, Texas - September 25 - 27, 2009
SPEAKER APPLICATION

The Roundup offers free ongoing talks on the grounds, the purpose of which is to educate the public on all aspects of sustainability. If you are knowledgeable in a particular field and would like to share your knowledge with others, please tell us about it by completing this form or online at www.The ROUNDUP.org.

These lectures are held in tents on the grounds, with a new presentation scheduled every 60 or 120 minutes, and are open to all Roundup visitors at no additional charge. Because The Roundup is in its tenth year, many visitors have attended previously.

In the past the Roundup has discouraged presentations that are overtly commercial. This year, we are designating one tent in which more commercially-oriented presentations will be allowed. Priority scheduling will be given to our exhibitors.

A/V equipment will be available, but again, please remember that these talks are held in tents, which necessarily limits the quality of visual presentation. We have achieved the best results using LCD projectors. We will have a laptop computer and LCD projector in each tent, and we encourage you to bring your presentation on CD-ROM or USB thumb drive.
